

Experience:

- **Are you familiar with data visualisation tools? How many years of experience do you have with tools such as Power BI or Tableau in an academic setting or on personal projects?**
Yes, I am familiar with data visualization tools like Power BI and Tableau. I have around **1 year of experience** using these tools in academic projects and personal endeavours.
- **Are you familiar with Scikit-learn? How many years of experience do you have with building models using Scikit-learn in an academic setting or on personal projects?**
Yes, I am familiar with Scikit-learn and have about **1 year of experience** building models using it in academic projects.
- **How many years have you been working with Python in an academic setting or on personal projects?**
I have been working with Python for **2 years**, primarily for data analysis, machine learning, and automation projects.
- **How many years have you been working with Flask in an academic setting or on personal projects?**
No, I don't have any experience with Flask.

Education:

- **Do you have or are working towards Ph.D. or a Masters in Statistics/Math, Computer Science, Finance/Economics, or related quantitative fields?**
I am currently pursuing a Master's degree in Data Science with a strong focus on statistical analysis and machine learning.

Behavioural:

- **Are you willing to work on weekends?**
Yes, I am flexible and willing to work on weekends if necessary to meet project deadlines or team goals.
- **What's the most interesting thing about you that's not on your resume?**
I am highly adaptable and have a knack for learning new tools and technologies quickly, which has helped me contribute effectively to diverse projects.
- **What are your biggest strengths? What are your biggest weaknesses?**
Strengths:
 - Strong analytical and problem-solving skills.
 - Quick learner with the ability to adapt to new tools and environments.
 - Collaborative and communicative in team settings.**Weaknesses:**
 - Tendency to overanalyse details, which I am working to balance with a big-picture perspective.
- **What specifically attracted you to this particular position and what interests you most about our company?**
I am attracted to this position because it offers an opportunity to leverage my data analysis and visualization skills while learning from industry professionals. Your company's innovative approach to solving real-world problems aligns with my career goals, and I'm particularly impressed by your focus on data-driven decision-making.

- **Where are you currently located?**
I am currently located in Pune, India.
